

ROOKIE ME: USER UPDATES

NEW FEATURES AND OFFERS IN 2026.

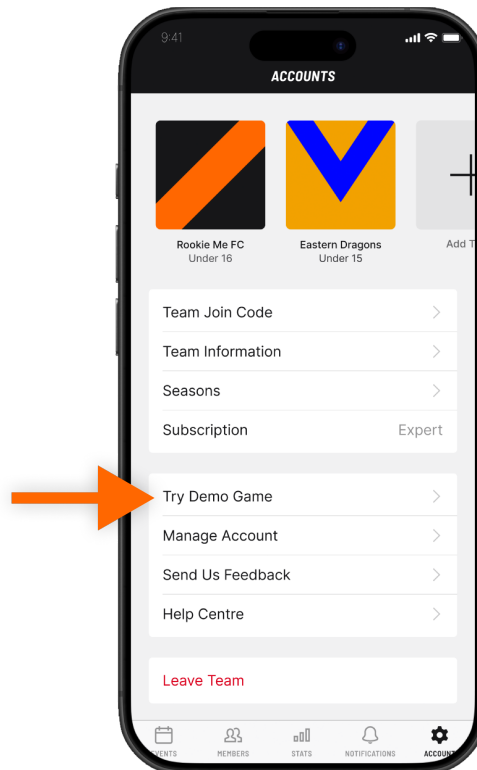

Field View on a Phone (available 20 April)

- Most iPad features are now accessible on the iPhone, giving you the same powerful experience. Such as, **Field View**.

Demo Mode

- Enjoy FREE access and experience how the app enhances your game day.
- Perfect for new users to explore and become comfortable with Play features before game day.
- Access through the **Accounts** section or the **Log in** screen.

FREE use of our club/team management app: Rookie Me Connect

- Free access for club/teams > <https://www.rookieme.com/connect/>
- Simplifying communication, safeguarding children, and team/club operations.
- Eliminate WhatsApp channels and email communication, stay connected on one platform.
- Onboarding webinar available for club admins.
- Existing Teams (and members) created on Play/Hub immediately appear on Connect.
-  Legislative Implications for Clubs/Teams

FREE use of the *Premium* version of Rookie Me Coach (training)

- Rookie Me has partnered with the AFL, to enable FREE access to **Rookie Me Coach Premium** for all **AFL Learn account** holders.
 - Many coaches aren't aware of this, and as a result, miss out on full access to session plans, training drills, and the National Coaching Curriculum.
 - <https://coach.rookieme.com/>
-

Play is now available across multiple sports

Play is supporting coaches across multiple sports:

- Netball;
- Basketball;
- Soccer;
- Football;
- Field Hockey;
- Rugby Union;
- Rugby League;
- Touch Football; and
- Lacrosse.

Special Offer

Enjoy an introductory **50% OFF** all subscriptions.

Enhanced Game Setup (Driven by User Feedback)

We've listened to our users' feedback and made it easier to set up a game.

This includes:

- Easy access to alerts; and
 - Saved line-ups.
-

Set Line-ups for each period

- Preset your lineups for each quarter/half (in-app game set-up)
 - Changes are activated automatically at a period break.
-

Save Line-ups (Coming soon on Hub)

- Save your favourite line-ups, for use in future games.
-

Tap to Rotate Players

- New feature: tap to move players with ease.
 - Users can still use the drag-and-drop modality, or a combination of tapping and/or dragging.
-

In-game planning: Stage Rotations (available 20 April 2026)

- Users will continue to have access to **Plan Mode** and the **Queue**, now enhanced with new functionality which allows you to plan upcoming rotations, without leaving the game screen. This feature is available in **User Preferences** under **Stage Rotations**.

User Preferences

- Customise the size of the playing card for flexibility on how you view game day.
 - Customise the positioning of your bench players.
 - Reverse the Field/Court/Pitch direction.
 - Hide the side-bar to provide players on the bench with a full screen view (if you are using the Delegations functionality) .
 - Customise how you interact with **Column View**.
 - Have the ability to hide the **Stats** and **Alerts** functions, if you are not using them.
 - Choose between the **Clock** counting up or down.
 - Choose to autoend periods.
-

Access to Extra Formations

- Customise your view, by choosing from a range of formations options: pre- and in-game.
-

Custom Stats

- Create your own custom stats and record them live (real-time) via our award-winning **Delegations** functionality.
-

Improved Stats User Experience

- Easy access to view cumulative stats.
 - Improved capacity for a user to customise their stats view.
-

Clock

- Addition of autoend period as a user preference.

Column View (Expert Subscribers)

- **New view** to assist users with structuring rotations. *Used by teams in the AFL and State League clubs.
-

More Reports on Rookie Me Hub

- **Bench Start:** reveals players who are consistently starting games or period(s) on the bench.
 - **Plus/Minus:** Keep score and we will provide you with individual player +/- for the game; and the season.
 - **Club Oversight:** One-touch reports exist to provide weekly injury, disciplinary and fair-game-time reports.
-

Huge performance improvements.

Improved UX and animations.
